PROFESSIONAL SUMMARY

Full-Stack Engineer and Systems Architect with 5+ years of hands-on production experience building high-availability web applications and multi-tenant SaaS platforms with Next.js/React, Node.js, and PHP (Laravel). Founder and Lead Architect at Vercura Systems, where I engineered a unified multi-tenant architecture powering 10 live production platforms — including an LMS serving 5,000+ active students across 21 learning centres that recorded a 35.6% increase in JAMB pass rates, and Katalog, a multi-tenant commerce engine with automated split-payments and logistics APIs. Concurrently a full-time engineer at Educare Technology Solutions for 5+ years, building core ERP modules for 100+ institutions and cutting report-dashboard data retrieval time by 40%. Comfortable owning a system end to end — architecture, backend, frontend, deployment, and long-term maintenance.

TECHNICAL SKILLS

Frontend — React.js, Next.js, Angular, JavaScript (ES6+), HTML5, SCSS/CSS, responsive & mobile-first UI

Backend & APIs — Node.js, PHP (Laravel), RESTful APIs, multi-tenant SaaS architecture, incident support & troubleshooting

Databases — PostgreSQL, MySQL, SQL query optimization & indexing, database schema design, Redis caching

Payments & Third-Party APIs — Flutterwave (subaccounts, escrow settlement, split payments), Shipbubble (logistics), Termii (SMS), Prembly (KYC), Google OAuth

Cloud & Infrastructure — AWS, Google Cloud, DigitalOcean, VPS server management, Kubernetes, Cloudflare R2, Vercel

CI/CD & Testing — GitHub Actions, automated build/test/deploy pipelines, Jest, Mocha

CMS — WordPress (Advanced Custom Fields)

Tools — Git/GitHub, VS Code, PhpStorm, Slack, ClickUp

PROFESSIONAL EXPERIENCE

Founder & Lead Systems Architect — Vercura Systems

2020 – Present

- Solo-architected and deployed a portfolio of 10 live production platforms (“the Corona System”) on a shared multi-tenant architecture, across 95+ GitHub repositories and 2,600+ commits
- **Academy Pro:** multi-tenant LMS with 7 role-based access tiers and AI-assisted performance analytics; flagship deployment powers Enugu West Academy (5,000+ students, 21 learning centres), now in its second session, which recorded a 35.6% increase in JAMB pass rate in its most recent session
- **Katalog:** multi-tenant, WhatsApp-first commerce engine for Nigerian small businesses; built Flutterwave split-payment/escrow settlement, Shipbubble shipping integration, Google OAuth, and a GPS-based store discovery marketplace
- **Civitas:** multi-tenant civic/community governance platform for estates, churches, and town unions, with isolated tenant financials and audit logging
- **Bastion:** civic/election intelligence platform with a seven-tier role hierarchy and real-time monitoring

Technologies: Next.js, React, Node.js, Laravel, PostgreSQL, MySQL, Redis, AWS, Flutterwave, Shipbubble, Cloudflare R2

Full-Stack Developer — Educare Technology Solutions Limited

01/2023 – Present

- Built custom reporting dashboards and core ERP modules deployed across 100+ schools and educational institutions
- Optimized SQL queries and indexing, reducing report-dashboard data retrieval time by 40%
- Mentored junior developers, improving team productivity and code quality

Technologies: Node.js, React, PHP/Laravel, MySQL, REST APIs, Git

Junior Web Developer — Educare Technology Solutions Limited

07/2020 – 12/2022

- Progressed from intern to junior developer through demonstrated technical aptitude
- Resolved 500+ technical issues across school management portals, payment flows, and parent-teacher communication interfaces
- Developed reusable result/report-card templates adopted across 10+ institutions
- Migrated 3 client websites to WordPress, enabling non-technical staff to update content

Technologies: PHP, JavaScript, WordPress (ACF), HTML5/CSS3, MySQL

FEATURED PROJECT

Lead Systems Developer — Senator Osita Ngwu — Official Civic Portal (ositangwu.info)

Custom-architected digital civic portal for a sitting Nigerian Senator representing Enugu West Senatorial District — not a template build

- Designed and built a public legislative scorecard tracking bills, motions, and oversight functions
- Built a live Impact Dashboard with animated counters for lives touched, communities served, students supported, scholarships awarded, and farmers/households supported
- Developed an online scholarship application system, constituent Talent Hub, Local Directory, and automated news/newsletter CMS
- Integrated with Academy Pro to surface live Enugu West Academy enrollment and pass-rate data directly on the public portal

EDUCATION

BSc, Computer Science with Statistics

University of Nigeria, Nsukka (UNN)
